# WHO ARE WE?

We are a contemporary and connected study destination that aims to produce well-rounded, sought-after graduates and post graduates. We are recognized for our innovative and relevant programs, our engagement with business, industry and communities, and our commitment to learning, teaching and research that prepare students for our changing world. Kingston Imperial Institute, Dehradun intends to establish itself as an institution of global standing and impact. We shall offer a curriculum and access to a diverse range of student experiences to help shape future global leaders. Kingston Imperial Institute, Dehradun will value the strong partnerships with individuals, institutions and organizations. These relationships will create opportunities for research collaboration and knowledge exchange by bringing together the best minds to address critical issues of global importance. We are committed to engaging with our friends and colleagues from around the world and invite you to experience success with us. The Kingston Imperial Institute, Dehradun is a not-for-profit Indian College with a mission: as an institution, to provide a practical education for students in the specific program based solely on the candidate's academic merit, which prepares for better employability. It's the excellent academic reputation of KINGSTON IMPERIAL that makes it stand out. We help a student inculcate the necessary skills required to cope up with the fast-paced workplace scenario. Wherever your career path takes you after your degree, the skills and experience you'll gain at KINGSTON will assure you a brighter future. KINGSTON is an excellent institution and its strong reputation is reflected in the outstanding caliber of the academicians who teach and research here.

## All India Council for Technical Education (Ministry of HRD, Govt. of India)

AICTE was set-up in November 1945 as a national level Apex Advisory Body. The statutory All India Council for Technical Education was established on May 12, 1988 with a view to proper planning and coordinated development of technical education system throughout the country and proper maintenance of norms and standards.

**Uttarakhand Board of Technical Education** : It has been setup by an act no - 27 of 2003 as passed by Uttarakhand legislative assembly and assented by governor on 13-January 2004 and notified on 15 - January 2004. It provides for the establishment and constitution of Board of Technical Education in Uttarakhand and for matters connected there with or incidental there to. The act is enacted by state assembly in 54 year of India. It shall be deemed to have come in to force from the date of notification issued by the state government. It extends to the whole of Uttarakhand state.

**H.N.B. Uttarakhand Medical Education University**(UGC Recognized, NAAC Accredited) (Central Govt. University) The establishment of the Hemwati Nandan Bahuguna Medical Uttarakhand Education University at Dehradun, by an Act enacted by the Uttarakhand Legislative Assembly and assented to by the Governor on 18 February 2014 by the Uttarakhand Govt-Act-No72/xxxvi(3)/2014/07(1)/2014 to fulfills the long standing need of the people of Uttarakhand to have an institution for the advancement and development of medical education in the state.

It aims not only to guide the medical, dental, nursing and para-medical education in the state by affiliating all such institutions with it but also itself carry high level and specialized teaching and research.

**The Pharmacy Council of India** (PCI) is a statutory organization that reports to the Indian government's Ministry of Health and Family Welfare. It was established under the Pharmacy Act of 1948 to control pharmacy education and practice across the nation. The Education Regulations, which set forth the requirements to be met by schools requesting PCI accreditation for offering pharmacy education, are the minimum standard of education that must be completed in order to

qualify as a pharmacist.

**Indian Nursing Council** is a national regulatory body for nurses and nurse education in India. It is an autonomous body under the Government of India, Ministry of Health & Family Welfare, constituted by the Central Government under section 3(1) of the Indian Nursing Council Act, 1947 of Indian parliament. According to the original act the function of the council is to provide "uniformity in nursing education". Indian Nursing Council has the Power to require information as to courses of study and training and examinations.

**Veer Madho Singh Bhandari Uttarakhand Technical University** (UGC Recognized, Govt. University)

Veer Madho Singh Bhandari Uttarakhand Technical University situated at Dehradun, Uttarakhand, INDIA. This was established on 27th January 2005 by Uttarakhand Technical University act 2005.

## MISSION : "To be the best platform for making most efficient human beings"

KINGSTON IMPERIAL INSTITUTE is committed to achieve excellence in both teaching and learning by providing a distinguished educational experience within a diverse national and international community. Our mission is to inspire and cultivate the potential of young individuals, enabling them to become highly productive and successful members of society.

## VISION

KINGSTON IMPERIAL INSTITUTE is a visionary educational institution that takes pride in its innovative and industry-focused programs. At our College we ensure students get the best start to their future career to become smart and careful citizens of our glorious country INDIA.

**Dr. Muhammad Aslam Siddiqui**

**Dr. Umang Ahlawat**

## MESSAGE FROM HEAD ACADEMIC SERVICES

It is my pleasure and honour to welcome you to Kingston Imperial Institute Dehradun, which is one of the premier Medical college of Northern India. We the Kingston Imperial Institute Dehradun as a community is focused in delivering the high quality education to our students through a blend of theoretical & practical sessions, Internships, skill enhancement programs and much more.. I assure you will achieve your learning goals with the best of experiences at our institution with the journey full of commitment, value and satisfaction.

## MESSAGE FROM PRINCIPAL NURSING

It gives me great pleasure to point out that the Kingston imperial institute of medical sciences, College of Nursing, is a unique nursing institution that is affiliated with the Hemwati Nandan medical Education University of Health Sciences in Uttarakhand. The education of nurses has a significant role in promoting and maintaining the general well-being of the country, according to the belief of society that a country's progress is based on its residents' health. We, the nursing faculty, accept the duty of advancing nursing education based on scientific principles, relating to theory and practice, in order to develop skilled, very competent, and qualified nurses, to meet the difficulties. We support the holistic growth of the students, placing a specific emphasis on extracurricular activities, the student's intellectual, cultural, and spiritual development in order to equip them to be effective change agents in the fast-paced society.

**Prof. Shabana Azmi Malik**

**Dr. Jhuma Samanta**

## MESSAGE FROM PRINCIPAL PHARMACY

One of the most respected and dignified professions, pharmacy upholds the trust and admiration of the people we serve and has great ideals. I cordially encourage everyone to visit and learn more about Kingston Imperial Institute and Technology and Sciences. The goal, when the journey began, was to create a center of excellence for pharmaceutical education. Our pharmacy school is a proud contributor to the field of medical care, research, and teaching excellence. The development of theoretical understanding, hands-on experience, and the capacity for innovation with fresh ideas in the field of pharmaceutical education is the main focal areas of our institute. The Pharmacy Council of India (PCI) has given our institute top marks for its standards and amenities. With the purpose of establishing quality throughout the pharmaceutical sector, we seek to deliver top-notch facilities, competent teachers, and enthusiastic staff.

## MESSAGE FROM VICE PRINCIPAL NURSING

Welcome to the "Kingston Imperial Institute of Medical Sciences", Our vision and mission must be fulfilled in order to enable our students stand out in the care and services they offer to the greater community and to advance the nursing profession in our nation, we are willing to put forth the most effort possible. We consider education to be a potent tool for enacting social change. Observing our students' promising and fruitful professions, both domestically and abroad, gives us hope. We are happy to be a part of such exceptional management, which is influencing modern India. Our staff's receptiveness, the top-notch facilities, and hands-on clinical training prepare our nursing students to handle any issues that may arise now or in the future.

A hearty welcome to all the aspirants who are joining this institute and offer my best wishes for their academic journey.

**Prof. Nuzhath Alam**

## Sustainability at Kingston Imperial: Initiatives and Progress

At our college, we strongly believe that the progress of the institution is not only the responsibility of the management but also that of the faculties and students. We are proud to say that our faculties and students have taken numerous initiatives to contribute to the overall development and progress of the college.

Our faculties are highly dedicated and committed to the welfare of the institution. They take active participation in organizing various events, workshops, and seminars, which are aimed at enhancing the academic and research capabilities of the students. They also mentor and guide students in various co-curricular activities, providing them with a holistic education experience.

Furthermore, our students are highly motivated and passionate about making a difference in the college. They have taken initiatives to organize cultural events, sports meets, and other extracurricular activities, which provide opportunities for students to showcase their talents and skills. These activities help in fostering a sense of camaraderie and teamwork among the students, which is essential for their overall development.

In addition, our students have also initiated various community service projects, which are aimed at creating social awareness and promoting social responsibility. These projects have helped in creating a positive impact on the society and have helped in building the reputation of the college in the community.

In conclusion, the active participation and initiatives taken by our faculties and students have played a vital role in the progress and development of our college. Their contributions have helped in creating a dynamic and vibrant learning environment, which is essential for the overall growth and development of the students.

As part of our commitment to providing a well-rounded education, we organize several events each year to expose our students to various aspects of the healthcare industry. These events include World Pharmacist Day, Radiology Day, Physiotherapy Day, Cancer Awareness Day, Optometry Day, and Tuberculosis Awareness Program, among others. In addition to these healthcare-related events, we also conduct transgender awareness programs and Mission Life events to educate our students about the importance of inclusion and empathy in healthcare. We also provide hospital training opportunities for our students to gain hands-on experience in a clinical setting. Through these events and programs, we aim to not only enhance our students' understanding of the healthcare industry but also promote their personal and professional growth. We believe that by exposing our students to a variety of healthcare-related experiences, we can prepare them to become well-rounded and compassionate healthcare professionals.

## COURSES OFFERED

- D.Pharma ● B.Pharma
- B.Pharma (Lateral Entry)
- B.Sc Nursing ● B.Sc Optometry
- Bachelors of Medical Lab Technology
- B.Sc Radio & Imaging Technology
- B.Sc Medical Microbiology
- Bachelors of Physiotherapy

### D.Pharma - 2 Years

Pharmacy is the field in medicine which links health science with chemical science. Diploma in pharmacy (D. Pharm) is an undergraduate diploma program in the medicinal field of pharmacy which enables a candidate to know the basic concepts of pharmaceutical science. After the completion of D. Pharma course, the candidate become a registered pharmacist and have a huge career scope both in government as well as in private organizations.

### Eligibility

To be eligible for enrollment in the Diploma in Pharmacy (D pharma), the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology/Maths. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 45% marks.

### MAJOR CAREER OPPORTUNITIES FOR PHARMACY

- Higher studies ● Research and development ● Academics ● Food and Drug administration ● Drug Formulation
- Therapeutic Drug Monitoring (TDM) ● Medical Services ● Medical Coding ● Forensic Science
- Pharmaceutical Marketing Representative ● Clinical Data Management ● Pharma covigilance ● Drug Regulatory Affairs
- Intellectual Property Right Management ● Hospital and Clinical Pharmacist ● Packaging Research Unit ● Pharmaceutical Business and Consultant ● Wholesale and Retail Pharmacy

## B. Pharma - 4 years

Bachelor of Pharmacy (B. Pharma) is a four year undergraduate program designed to introduce students with the properties and impact of pharmaceutical drugs. The program help students in developing the skills essential to council patients about medication and use of drugs. The curriculum and syllabi for the course are as per Pharmacy Council of India (PCI), the statutory body governing pharmacy profession in India. The core pharmacy subjects include Pharmaceutics, Pharmaceutical Chemistry, Pharmacognosy and Pharmacology. Under this program the emphasis is laid on human anatomy, drug dosage, drug action and reaction, active ingredients used in the formulation of the drug and how to maintain their quality in the storage. In addition the program also concentrate on preparing the students and training them for industry-ready holistic Pharmaceutical care in the practice setting. The industrial visit and equally important practical sessions ensure students receives a perfect exposure to the real world situations while learning.

### Eligibility

To be eligible for enrollment in the Bachelor in Pharmacy (B pharma), the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology/Maths. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 45% marks.

## B Pharma (Lateral entry) -3 years

The Bachelor of Pharmacy program offered through lateral entry is an undergraduate course that spans three years and can be pursued by individuals who have already completed a diploma in pharmacy. During the three-year program, students will study a range of topics, including pharmacology, pharmaceutical chemistry, pharmacognosy, pharmacy practice, and pharmaceutics. They will also gain practical experience through internships and industry placements, where they will have the opportunity to apply their knowledge in a real-world setting.

Overall, the B.Pharma lateral entry program is an excellent opportunity for individuals who have completed a diploma in pharmacy to further their education and build a career in the pharmaceutical industry. With a strong focus on practical skills and real-world experience, this program offers a comprehensive education that will prepare graduates for success in the field of pharmacy.

**Eligibility** - To be eligible for enrollment in the Bachelor in Pharmacy (B pharma), the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology/Maths. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 45% marks.

## Major Career Opportunities for Pharmacy

● Higher studies ● Research and development ● Academics ● Food and Drug administration ● Drug Formulation ● Therapeutic Drug Monitoring (TDM) ● Medical Services ● Medical Coding ● Forensic Science ● Pharmaceutical Marketing Representative ● Clinical Data Management ● Pharmacovigilance ● Drug Regulatory Affairs ● Intellectual Property Right Management ● Hospital and Clinical Pharmacist ● Packaging Research Unit ● Pharmaceutical Business and Consultant ● Wholesale and Retail Pharmacy

## B.sc. Nursing 4 year

The B.Sc. nursing degree program is a four-year fulltime program comprising eight semesters, which prepares B.Sc. nursing graduates qualified to practice nursing and midwifery in a variety of settings in either public/government or private health care settings. It adopts credit system and semester system as per the Authority guidelines with minor modifications suitable to professional education in a hybrid form. The program encompasses foundational, core and elective courses. The choice-based system is applicable to electives only and is offered in the form of modules. Modular learning is also integrated in the foundational as well as core courses that is mandatory.

The program prepares nurses and midwives for generalist nursing including midwifery practice. Knowledge acquisition related to well ness, health promotion, illness, disease management and care of the dying is core to nursing practice. Mastery of competencies is the main focus. Students are provided with opportunities to learn a whole range of skills in addition to acquiring knowledge related to nursing practice(nursing and midwifery).This is achieved through learning in skilllab/simulated lab and clinical environment. Simulation will be integrated throughout the curriculum wherever feasible to enable the to develop competencies before entry into real field of practice.

## Eligibility

To be eligible for enrollment in the BSc. Nursing, the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology, along with English as a compulsory subject. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 50% marks.

## Scope

Scope of nursing and midwifery practice encompasses provision of promotive, preventive, curative and re habilitative aspects of care to people across the life span in a wide variety of healthcare settings. Nursing practice is based on acquisition of knowledge, understanding, attitude, competencies and skills through the Council's curricular and practice standards. The competencies in which the students are retrained will guide them in performing their scope of practice. Nursing offers qualified nurses and mid wives a wealth of opportunities in the field of practice, education, management and research in India and overseas.

## Job Prospects

- JCI Hospitals ● NABH Hospital ● Specialized Hospital ● Teaching Hospital ● Military Nursing ● Aviation Nursing/department ● Industrial Nursing ● Community Health Sector ● School Health Nurse ● Insurance Agencies ● International Agencies/NHM/MOH/WHO/UNICEF etc.

## B. Sc Optometry 3 years.

Optometrists are healthcare professionals who specialize in eye care. They play an essential role in the diagnosis and treatment of eye diseases and conditions, including refractive errors, cataracts, glaucoma, macular degeneration, squint detection etc.

The B.sc. Optometry course typically takes three years to complete and involves both theoretical and practical components. Students learn about the structure and function of the eye, how light interacts with the eye, and how the brain processes visual information. They also study the various techniques used to diagnose eye diseases and conditions, such as tonometry, visual field testing, and retinal imaging.

Optometrists work closely with other healthcare professionals, such as ophthalmologists, opticians, and general practitioners, to provide comprehensive eye care to patients. They play a crucial role in the management of chronic eye conditions, such as glaucoma and macular degeneration, by monitoring patients' progress and adjusting treatment plans as necessary.

Overall, the Bsc. Optometry course provides students with a solid foundation in the field of eye care, preparing them for a fulfilling career as an optometrist. Graduates of the programme can expect to work in a range of settings, including private practices, hospitals, and community health centres, providing essential eye care services to patients of all ages.

**Eligibility** To be eligible for enrollment in the BSc. Optometry, the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology, along with English as a compulsory subject. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 50% marks.

### Major Career Opportunities for Optometry

- Optometry Researcher. ● Teaching ● Ophthalmic Assistant. ● Sport Vision Consultant. ● Examiner. ● Orthoptics Specialist.
- Ocular prosthetics Specialist.

## B.Sc. RADIO & IMAGING TECHNOLOGY (3 Years)

Radiology is the branch or specialty of Medicine that deals with the study and application of Imaging Technology like x-ray and Radiation to Diagnosing and treating diseases. Radiology Technologists are Health Care Professionals who perform diagnostic Imaging Procedures and are responsible for accurately positioning patients and ensuring that a quality diagnostic image is produced. Radiology Technicians produce clear and accurate images of the body that enable physicians to diagnose and treat medical conditions that would otherwise be difficult to document. Radiology Technicians operate sophisticated equipment that includes X-ray, Mammography, and Computerized Axial Tomography (CAT) and Position Emission Tomography(PET) scan devices.

### Eligibility

To be eligible for enrollment in the Radio & Imaging Technology Technology, the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology, along with English as a compulsory subject. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 50% marks.

### Major Career Opportunities for Radio & Imaging Technology

After B.Sc Radio & Imaging Technology one will be eligible to work as a Radiographer in various hospitals, clinics and so on. A Radiographer is a qualified physician who is capable of interpreting the images generated through x-ray, magnetic resonance imaging and other modern technologies. Ultrasound and nuclear medicine are also another means used in Radiology.

## Bachelors Of Medical Lab Technology -3 Years

Bachelors of Medical Lab Technology is a three year regular degree program. BMLT is an Allied Health specialty concerned with the diagnosis, treatment and prevention of disease through the use of clinical laboratory tests. Though the Medical Lab technologists spend less time with patients than doctors and nurses, medical laboratory professionals are just as dedicated to patients' health. As vital members of the health care team, medical laboratory professionals play a critical role in collecting the information needed to give the best care to an ill or injured patient. The fact is, the practice of modern medicine would be impossible without the tests performed in the laboratory.

### ELIGIBILITY

To be eligible for enrollment in the Bachelor of Medical Lab Technology, the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology, along with English as a compulsory subject. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 50% marks.

### Major Career Opportunities for Medical Lab Technology

There are scores of career prospects offered for people who have completed their graduate level studies in medical lab technician. Those include:

- Laboratory Technician ● Laboratory Manager ● Medical Officer ● Research Associate ●

Medical Record Technician

- Resident Medical Officer ● Lab Assistant ● Laboratory Testing Manager ● Translation ● Teaching

### B.Sc. MEDICAL MICROBIOLOGY -3 Years

Medical microbiology, a crucial branch of both microbiology and medicine, focuses on the study of microorganisms that are capable of causing diseases in humans. Medical microbiologists research and analyze the behavior and characteristics of various microorganisms, including bacteria, viruses, fungi, and parasites, that can potentially cause diseases in humans. Medical microbiology also plays a significant role in the development of vaccines, antibiotics, and other medications to treat infectious diseases. The field of medical microbiology is constantly evolving as new microorganisms and infectious diseases emerge, and medical microbiologists must keep pace with these changes in order to effectively diagnose and treat patients. Medical microbiology courses also cover the principles and applications of diagnostic microbiology, including laboratory techniques for the isolation, identification, and characterization of pathogenic microorganisms. Students learn how to use various tools and technologies such as microscopy, culture techniques, serological assays, and molecular methods for diagnosing infectious diseases.

The course also emphasizes the epidemiology and control of infectious diseases, including strategies for disease surveillance, outbreak investigation, and public health interventions. Students learn about the principles of infection prevention and control, antimicrobial resistance, and the development of new antibiotics and vaccines.

## Eligibility

To be eligible for enrollment in the B.Sc. Medical Microbiology, the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology, along with English as a compulsory subject. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 50% marks.

## Major Career Opportunities for Medical Microbiology

Microbiology is a rapidly developing field, with discoveries and advances occurring regularly. As a result, there is a lot of scope for further research and study. Students pursuing a B.Sc. in Microbiology may also be eligible for foreign education and employment. Government agencies also conduct exams to recruit microbiology graduates for different positions. In addition, various colleges and zoology labs organise microbiology projects, and B.Sc. graduates can apply for these positions.

- Bacteriologist ● Virologist ● Mycologist Medical Microbiologist ● Protozoologist
- Food Microbiologist
- Geneticist ● Biotechnologist ● Cell Biologist ● Industrial Microbiologist
- Biochemist ● Immunologist ● Environmental Microbiologist ● Biomedical

## Bachelor of Physiotherapy (BPT) -4 Years

The programme concentrates on imparting practical expertise on the subjects including Exercise Therapy Electrotherapy Radiology & Imaging Technology Orthopedics& Traumatology and General Medicine. The aim of the programme is to train students at an advanced level about core physiotherapeutic skills such as therapeutic exercises and application of electro-physical modalities which can cure a range of diseases and disabilities related to back spine neck shoulder and legs.

The programme emphasizes on learning to improve movement dysfunction and promote functions of the human body and optimal health. In addition, the programmes practical sessions ensure that students get exposure to accurate diagnosis and treatment of disease and disability. After completion of the programme aspirants are enrolled for a six-month internship to prepare them for cases & conditions and enhance their learning. No doubt that the rise of industrialization and mechanization has resulted in the increase in demand and scope of physiotherapy in India and abroad.

## Eligibility

To be eligible for enrollment in the Bachelor of Physiotherapy (BPT) the candidate must have completed the Indian School Certificate Examination or an equivalent 10+2 secondary examinations after 12 years of study, with the last two years of study including Physics, Chemistry, and Biology, along with English as a compulsory subject. Additionally, the candidate must have passed each of these subjects individually and obtained a minimum of 50% marks.

## Major Career Opportunities for Physiotherapy

- Consultant Physiotherapist in Multi-Specialty Hospitals, Health Care Centers, NGOs ● Corporate Physiotherapist in MNCs
- Health Care Physiotherapy Instructor in Modern Gymnasiums ● Ergonomic Care Advisor ● Physiotherapist in Special Schools for Physically Challenged Children ● Physiotherapist in Old Age Residential Homes ● Sports Physiotherapists along with Sports
- Associations, Sports Team, individually hired physiotherapists by elite athletes ● Entrepreneurs in Rehabilitation Centers/ Organizations ● Private Practitioners running Private Physiotherapy Practice ● Lecturer ● Clinical Researcher

## CAMPUS LIFE

**Unlock your potential and  
explore endless  
possibilities...**

From the moment students arrive at Kingston Imperial Institute of Medical Science, they get quite a number of help services designed to assist them in settling down in the new world of education. The scholar guide services offer ongoing assistance to all college students.

Campus life in college can be an exciting and enriching experience for students. At Kingston Imperial Institute of Medical Science, there are numerous opportunities for students to get involved in campus activities, clubs, and organizations. These groups provide students with opportunities to meet new people, develop leadership skills, and explore their interests outside of the classroom.

The campus is home to a wide range of student organizations, including cultural groups, athletic teams, academic clubs, and volunteer organizations. These groups provide opportunities for students to connect with others who share their interests and passions, and to explore new areas of interest.

In addition to clubs and organizations, the college also offers a range of social events throughout the year. These events include dances, concerts, festivals, and other activities that allow students to come together and have fun.

The campus also has a variety of facilities and resources to support students' academic success. There are libraries, study spaces, and computer labs available for students to use, as well as academic advisors and tutoring services to help students achieve their academic goals.

Overall, campus life at Kingston Imperial Institute of Medical Science is designed to support students in every aspect of their college experience, from academic success to social and personal growth. With a wide range of resources, activities, and opportunities available, students can make the most of their college years and prepare themselves for a successful future.

## CAMPUS Accommodation

Living in student accommodation is great fun and an ideal opportunity to make both good friends as well as unforgettable memories.

Everybody needs to have some fun every now and then. How we spend our free time is up to ourselves. Many people follow a hobby such as sports, dancing, concerts, arts & crafts, or music. Others enjoy a quiet evening on the couch in front of the TV. No matter what hobby we choose, it is usually meant as a means of recreation to give us a healthy life-work balance. Sometimes it harmonizes with our lifestyle, other times it is the total opposite of our regular life.

Students new to the city normally look for somewhere affordable, comfortable and within easy travelling distance of the Institute. We have approximately 700 bed spaces on offer for our students in our self-catering mess. In Campus accommodation is separate for boys and girls, which are typically arranged in rooms grouped together on separate sites. Students have their own bedroom and attached shower/toilet with approximately all rooms having access to the Institute's internet service. This provides the ideal environment for arranging entertainment, while the bedrooms provide privacy and an area in which to study and relax. Residences staff are happy to help to give advice on room types and availability, however students will find all the information they might need, including how to apply, our current hostel charges, on our website pages. ([www.kiits.in](http://www.kiits.in), [www.kiims.in/boarding-accomodation](http://www.kiims.in/boarding-accomodation))

# HOSTEL

With students coming from various backgrounds our mess offers North Indian food, South Indian Food, Chinese food in both Vegetarian and non-vegetarian categories. A large dining hall with a capacity of multiple people to dine at same time enables all the students and staff members to have meals. Attached to the mess we have a large kitchen equipped with a steam cooking option. Students and staff are provided with Breakfast, Lunch and Dinner along with Tea and Snacks every day. Special care is taken to provide quality and hygienic food to the students.

Students can also find their own accommodation / restaurants in close vicinity as per their convenience there are so many options available nearby the college campus.

At KIIMS we have students from across the nation and beyond, we have rich cultural diversity in our campus, Hostel life is essential part of college life which make students self dependent, in the process of making new friends student come across students from different states/nation and different perspective which makes him/her a person with better understanding of things and help them grow in life with positive attitude.

Institution offers its students plenty of boarding options with a variety of rooms on campus, with experienced and caring house counselors on board. Students' day to day life becomes easy and a dream place to study. Every student is provided with a mattress, hostel bed, linens, pillow etc. at additional cost. With separate hostels for boys and girls and space for over 1200 students to house we have an in house mess service which takes care of the food of our hostel students with meals filled with great nutrition and health value.

## House Residential Accommodation

Charges : Enrollment Fee : INR 5000/- (To be paid once )

A) Accommodation charges are assessed on a yearly basis and are inclusive of both vegetarian and non - vegetarian meal options.

# Admission Policy

## How to apply

All applications should be made through the offline or online modes, for offline registrations you can visit Kingston Imperial Institute main campus or regional offices as mentioned in our view book, or through counseling/educational fairs. For online registrations, you can submit your application at [www.kiims.in](http://www.kiims.in)

## What happens after I've submitted my application?

Once your application has been received, it will be considered by our admissions staff. We aim to update you about our decision as soon as possible. The outcome of your application will come from affiliating bodies(in the case of applications through the Entrance/Counseling system) or direct from the Institute, and the response will normally be one of the following: ● an unconditional offer ● a conditional offer

● unsuccessful. Under certain circumstances the affiliating body/Institute may offer the opportunity to join a waiting list.

## Will I be interviewed?

For some of courses, applicants are interviewed prior to a decision being made. When interviews are required for entry, this is indicated in the individual course entries throughout website.

For all course the following documents are to be submitted along with the prescribed entrance examinations forms available with the admission brochure of Kingston Imperial Institute.:

1. Three attested copies of passport size recent photograph.
2. Attested proof of Date of Birth.
3. Attested photocopies mark sheets and degree/other proof based on which admission is sought.
4. Aadhaar Card

Bank draft in name of "Kingston Imperial Institute" payable at Dehradun for Rs. 6200/- towards Seat Reservation(Adjustable in tuition fee, admission tests (wherever applicable) and interview.

# Placement

“Believe in yourself and all that you are. Know that there is something inside you that is greater than any obstacle.”

SUNCARE

Placement programs, provide students with a chance to gain real-world experience in their field of study, which can enhance their career prospects and help them stand out in a competitive job market.

With the increasing demand for healthcare professionals, the demand for qualified and skilled paramedics and pharmacists is on the rise. Paramedical courses encompass a wide range of medical fields, such as nursing, physiotherapy, medical laboratory technology, radiography, and many others. Graduates of these courses can find employment in hospitals, clinics, rehabilitation centers, and other healthcare facilities. The job prospects for paramedics are quite favorable, and the demand for their services is expected to grow in the coming years.

Job opportunities are within close reach of students who study at the Kingston Imperial Institute of Medical Sciences, as the SIDCUL Industrial Area is located only a few kilometers away from the campus. This proximity offers students the opportunity to visit companies and pursue internships that are globally recognized. Notably, the Institute's placement team is forging partnerships with prominent companies such as Translumina Therapeutics, India Glycols Limited, East African Overseas, HAB Pharmaceuticals & Research Limited, NATCO Pharma Limited, and Suncare Formulation Limited, among others, to facilitate upcoming placements for students.

In light of these developments, students can look forward to a wealth of employment prospects and the chance to gain practical industry experience through internships. The Institute's strategic location, coupled with its collaboration with leading companies, underscores its commitment to preparing students for successful careers in the medical sciences.

## Navigating Campus : An Overview

**K1 KINGSTON<sup>TM</sup> IMPERIAL**  
INSTITUTE DEHRADUN

### Directions to the campus

Dehradun, the capital city of the Indian state of Uttarakhand, has emerged as a popular destination for students pursuing their studies. One of the most important considerations for any student is safety, and Dehradun scores high on this front. The city has a low crime rate and a peaceful environment, which makes it an ideal place for students to pursue their academic goals without any apprehensions.

Another notable aspect of Dehradun is its cleanliness. The city is known for its green cover and scenic beauty, which is a result of the government's initiatives to promote eco-friendliness. The streets are clean, and the air quality is better than most cities in India, which makes it a healthy place to live and study.

Dehradun has also emerged as a hub for quality education. Moreover, Dehradun offers a comfortable lifestyle to students. The cost of living is relatively affordable compared to other major cities in India, which makes it an attractive destination for students who are on a budget.

In conclusion, Dehradun is an ideal destination for students who are looking for a safe, clean, and comfortable environment to pursue their academic aspirations. With its excellent educational institutions, eco-friendly environment, and affordable cost of living, Dehradun has become a popular choice for students from all over the world.

**Campus** - Enrich your academic journey by studying at one of the premier institutions nestled in the foot hills of the Himalayas. The Kingston Imperial campus is located in Doonga, Dehradun, offering excellent connectivity through rail, road, and air routes. Join us at Kingston Imperial Institute to elevate your learning experience and achieve your academic aspirations in a serene and inspiring environment.

! Nearest railway station – Dehradun, approximately 17 km

! Nearest airport – Jolly Grant, approximately 42 km

Nearest bus station – Dehradun, approximately 17 km

### Transport facilities

Transportation is an important aspect of a student's daily routine, and it is essential that they have a safe and comfortable means of commuting to and from the institution. As an institution committed to providing a secure and convenient learning environment, we take great pride in our transportation services for students. To ensure the safety and comfort of our students, we have introduced buses for their transportation.

Moreover, our buses are operated by well-trained and experienced drivers who prioritize the safety of the students above all else. They adhere to all traffic regulations and ensure that the students reach their destination on time. Our transportation services also provide added convenience for our students. With our buses, students can avoid the hassle of commuting by public transport and can instead focus on their studies. This also helps in reducing the stress and anxiety associated with daily travel, allowing students to be more productive and focused.

In conclusion, our transportation services are an integral part of our commitment to providing a secure and convenient learning environment for our students. With our modern and safe buses, well-trained drivers, and added convenience, we strive to make the daily commute to and from our institution a hassle-free and pleasant experience for our students.
